If you are an RTDMS user, be sure to sign up for the member forum.

PMU Registry

There is a suggestion to create a PMU registry. Some of the questions that are being asked are below. Send any suggestions (or other questions that should be asked) to Terry and Tony. Some of the reasons for the database are to capture the general demographics, identify who is the owner/maintainer, whether or not the PMU is production quality, who saves the data, etc.

- Who maintains the database(s) and how many are there?
- What data should be collected in the registry beyond PMU type (manufacturer, model), owner, GPS location and system location?
- What software and database structure do we need to use to be able to leverage the registry for additional purposes, such as data and communications quality tracking?
- Does this registry need to interface with NASPInet (or should it)?
- What security and protections do we need to put on the registry with respect to confidentiality and CEII?
- Are there any players who clearly should be authorized to access the DB?
- Who can or should fund the database startup and maintenance?

NASPI Outreach

The NASPI website has been updated. Feedback on the new website is appreciated.

Teams 2009 Goals and Deliverables

Formalize the RTDMS User Group:

- Establish Listerv ✓
- Set up website ✓
- Catalog suggestions (send to Clifton) ✓
- Work within the NERC and DOE budgeting process. ✓
- Hold first meeting (likely in conjunction with Workgroup meeting) ✓
- Elect chair and vice chair. ✓

Implement high-value and simple enhancements: ✓

Deploy archive for use by authorized engineers and researchers. ✓

Perform outreach for other Operating Tool resources. ✓

Develop at least 5 additional “6 C” training documents.

Six Cs Training Templates

The suggestion is to use a template structure to organize training information and grow the set of learning aids over time. Examples where templates could be used:

- Respond to Excessive Angular Separation
- Respond to Local Area Oscillation
- Respond to Inter-Area Oscillation
- Identify Frequency Excursions due to Large Unit Trips
- Identify Frequency Excursions due to Load Loss.

Are there other suggestions?

NASPI 6 C Training
(Angular Separation).

NASPI 6 C Training
Template.doc

NASPI 6 C Training
Analysis of High Volta

The third attachment is a recent training document from Jim Kleitsch of ATC. Comments and suggestions are welcome.

OITT 2010 Goals

Focus of this month's call is a review of the goals for 2010. Looking for volunteers to support new goals.

Possible OITT 2010
goals October 2 2009

Upcoming Meetings of Interest

Webcast-Overview of using Phasors in Operations

You are invited to participate in a webcast sponsored by the RTDMS Users' Group entitled Using Synchrophasors in Operations. The webcast will be presented by Terry Bilke of Midwest ISO on **Friday, November 20, 2009 at 2:00 PM EST.**

Title of the Presentation: Using SynchroPhasors in Operations
Presenter's name and Organization: Terry Bilke, Midwest ISO
Summary of presentation:

Participants will receive an overview of the SynchroPhasor tools available now and what is likely on the horizon to help the System Operator. The focus of the presentation is to share ideas on when and where phasors can provide operators information that isn't available in the SCADA environment.

When: Friday, Nov 20, 2009 2:00 PM EST (GMT-05:00)

Duration: 1 hour

The webcast will be hosted by EPRI and recorded for posting to the North American SynchroPhasor Initiative (NASPI) website - www.naspi.org<<http://www.naspi.org>>.

Note: If you have not already done so, you may join the RTDMS Users' Group forum at: www.rtdmsusersgroup.org<<http://www.rtdmsusersgroup.org>>.

Kyeon Hur has invited you to attend an online meeting using Microsoft Office Live Meeting.
<https://www.livemeeting.com/cc/epripremier/join?id=MN6N2W&role=attend&pw=Bt%2C8%24bp%3DB>

Meeting time: Nov 20, 2009 2:00 PM (GMT-05:00) Add to my Outlook Calendar:

<https://www.livemeeting.com/cc/epripremier/meetingICS?id=MN6N2W&role=attend&pw=Bt%2C8%24bp%3DB&i=i.ics>

AUDIO INFORMATION

-Telephone conferencing

Use the information below to connect:

Toll-free: +1 (866) 596-3988
Participant code: 2325

FIRST-TIME USERS

To save time before the meeting, check your system to make sure it is ready to use Microsoft Office Live Meeting.

<http://go.microsoft.com/fwlink/?LinkId=90703>

TROUBLESHOOTING

Unable to join the meeting? Follow these steps:

1. Copy this address and paste it into your web browser:

<https://www.livemeeting.com/cc/epripremier/join>

2. Copy and paste the required information:

Meeting ID: MN6N2W

Entry Code: Bt,8\$bp=B

Location: <https://www.livemeeting.com/cc/epripremier>

If you still cannot enter the meeting, contact support:

http://r.office.microsoft.com/r/rlidLiveMeeting?p1=12&p2=en_US&p3=LMInfo&p4=support

NOTICE

Microsoft Office Live Meeting can be used to record meetings.

By participating in this meeting, you agree that your communications may be monitored or recorded at any time during the meeting.

As always, thanks for your continued interest and participation.

RTDMS Users' Group Chair,

Clifton Black
