**Evangelos Farantatos**  
Electric Power Research Institute

## Let's Talk About Synchrophasors, PMUs & Applications

Evangelos Farantatos received the Diploma in Electrical and Computer Engineering from the National Technical University of Athens, Greece, in 2006 and the M.S. and Ph.D. degrees from the Georgia Institute of Technology, Atlanta, GA, USA, in 2009 and 2012, respectively. He is a Senior Project Manager with the Grid Operations and Planning R&D Group at EPRI, Palo Alto, CA.

In lieu of the NASPI Working Group Meeting April 15-16 there will be four panel discussion webinars:

- Frequency measurements and ROCOF led by NIST's Allen Goldstein
- National Infrastructure for Artificial Intelligence on the Grid led by LBNL's Sascha von Meier
- Jeff Dagle of PNNL will lead a panel on program updates, where organizations speak to their time-synchronized measurement priorities for the grid, and
- a session on opportunities and challenges of using synchrophasor technology in control rooms led by Lower Colorado River Authority's NDR Nuthalapati.

## Next webinar in the NASPI Webinar series

- May 6, Terry Boston, PJM (retired) & Russell Robertson, Grid Protection Alliance
- More info coming soon!
