

Engineering Analysis Task Team Quarterly Meeting

Co-Leads: Urmila Agrawal (EPG), Lin Zhu (EPRI)

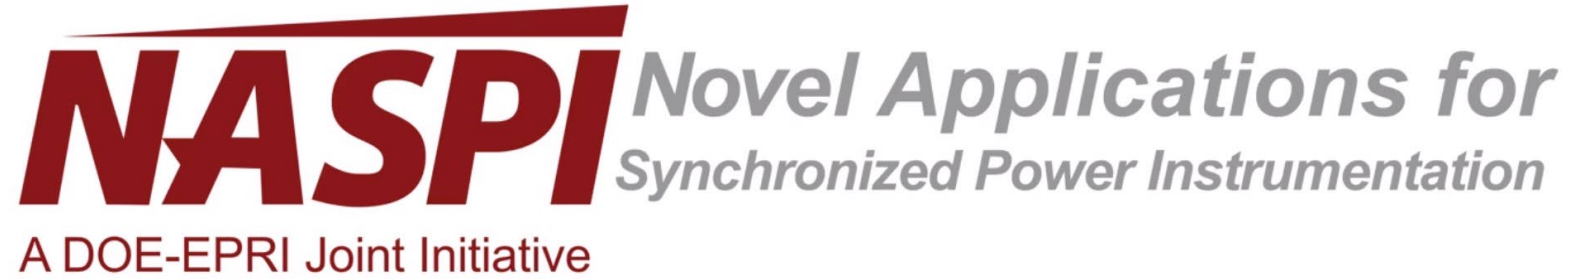

01/21/2026

EATT Mission

- Proliferate the development, testing, and validation of engineering applications that use synchronized measurements systems.
- Assist in the deployment and utilization of synchronized wide-area measurement engineering applications.
- Formulate and guide recommended R&D activities related to the advancement of wide-area synchronized measurement systems and their engineering applications.

Agenda

- Welcome – EATT Co-Leads Urmila Agrawal (EPG) and Lin Zhu (EPRI)
- NASPI update – Jim Follum (PNNL)
- IBR monitoring White Paper Update – Priya Mana (PNNL)
- Oscillation White Paper Update – Urmila Agrawal
- IBR EMT Model Validation using POW Data, Frankie Zhang (ISO-NE)
- Update on the Cloud-Based Demonstration of Oscillation Monitoring in the Eastern Interconnection - Jim Follum

Thank you for attending the NASPI EATT Quarterly Meeting 2026
