

NASPI Task Team Virtual Meeting Series July 8-9, 2026

Much of NASPI’s impact is due to the ongoing volunteer work that occurs within its task teams. These teams develop and promulgate best practices while serving as incubators for new ideas and approaches to solve common problems. During quarterly task team meetings, participants will have the opportunity to engage with presenters, discuss technical topics, and contribute to work products. All meetings will be held virtually and are free of charge.
